

**UPSG3014ST**  
**30-INCH GAS SLIDE-IN RANGE**

**PROHEAT® CONVECTION**

Takes the heating element from the bottom of the appliance and puts it in the back wall. Then, to ensure you have even cooking even with a completely full oven, we added a professional circulating fan to distribute the heat evenly.

**RAPIDHEAT™ BURNERS**

Our burners deliver up to 18,500 BTUs of power, allowing you to rapidly reach and maintain high temperatures, saving time and effort when mealtime approaches.

**EASY SWIVEL HANDLE™**

An inventive handle design makes your oven door more convenient to use. The hinge rotates the handle as you pull making it easier to lift and safer to operate, reducing the risk of burns.

**WIFI-ENABLED**

With ThinQ® technology, you can preheat your oven while you're still at the store. Smart Diagnosis and Clean Alert will make sure everything is working smoothly.

**Innovation**
